

## Reference Projects

### **Administration Building**

Bellefonte Area School  
District

Bellefonte, PA

Completion Date: 2002

Contact: Aaron Barto, Supervisor of Grounds and Buildings

Ph: 355-4814 x3006

Ling Partnership was given the responsibility to design and coordinate the replacement of a steam boiler, after the existing boiler failed in place and began leaking steam.

Ling Partnership was asked to provide a quick turn around on the project documents and revised in-house schedules to accommodate the clients needs. Ling Partnership was available for the client's physical plant personnel to answer questions through design and construction, to the extent of helping locate replacement equipment for other systems in other school district buildings during the duration of this project.
