University Park, PA

Building Gross Square Foot Area: 18,600 s.f.

Completion Date: 2001

Contact: Lisa Berkey, Project Manager, Ph: 865-7187

Ling Partnership designed the mechanical and plumbing systems for the renovation of the third and fourth floors in collaboration with Hoffman & Popovich Architects.

The offices on the third and fourth floors provide support space for the College of Education. HVAC systems serving this space include a central air handling system with energy efficient variable speed drive of the supply fan and variable air volume zone control of supply air distribution.

Ling Partnership also served as the prime professional for the cooling tower replacement project. Ling Partnership currently is the Mechanical Engineer for the Renovation of the First and Second Floors and Replacement of the Central Chiller.
